

Dear Trailside Metro District Resident,

As a benefit to the community, **we are designating Ram Waste Systems as the preferred trash and recycling service provider for Trailside Metro District.**

Ram Waste Systems has been providing quality service throughout Northern Colorado for the past 40 years! Their history of quality service, their local customer support, and their competitive pricing are all reasons we have chosen them as the community's preferred service provider.

If you are not already a Ram Waste Systems customer, **we encourage you to call Ram Waste at 970-226-3396 to take advantage of special pricing for Trailside Metro District residents.** You will speak with a local customer service representative who can help you sign up; **be sure to identify yourself as a Trailside Metro District (non-townhome) resident** to receive our special rates.

Ram Waste is already the contracted hauler for the neighborhood's Townhomes, and currently services several homes in the neighborhood. They will also be servicing the community pool. As such, we hope you take advantage of Ram's special pricing for Trailside Metro District, and help to minimize the truck traffic in our community.

Sincerely,

Trailside Metro District
